***Miscellaneous***

The Applicant has canceled claims 2 and 3, therefore only claims 1 and 4-11 are to be examined in this Office Action.

***Allowable Subject Matter***

Claims 1 and 4-11 are allowed. The following is an examiner's statement of reasons for allowance:

In regards to claim 1, the prior art discloses of a programmable logic device comprising a number of logic blocks with processing units, at least one input/output unit associated with the blocks, means for linking the blocks to one another, to the processing units and to the input/output units with a changeover block with linking elements to configure either the blocks, their connections to one another, to the processing units and/or to the input/output units, wherein the changeover block is on a first plane and the logic block device is on a second non-coplanar plane, however, the prior art does not directly disclose of the first and second planes being constructed as being largely equivalent in structure in accordance with the specification, nor would it have been obvious to one of ordinary skill in the art to do so. Claims 4-7 are also allowed as being dependent on the allowable claim 1.

In regards to claim 8, the prior art discloses of a programmable logic device comprising a plurality of logic blocks with processing units on a first plane, an input/output unit associated with the blocks, a linking part to link the logic blocks to one another, to the processing units of other blocks and to the input/output unit, the linking parts comprising a changeover block on a second plane located on the outside of the first plane, however, the prior art does not directly disclose of the first and second planes being constructed as being largely equivalent in structure in accordance with the specification, nor would it have been obvious to one of ordinary skill in the art to do so. Claims 9-11 are also allowed as being dependent on the allowable claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2819

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
